SUMMARY

Computer Science Student and Cross Platform Developer with hands-on experience building scalable, responsive applications and a core foundation in Data Structures and Algorithms for efficient problem-solving..

TECHNICAL SKILLS

Programming Languages: C++, Javascript

Frameworks: React Native

Libraries & Tools: React, GSAP

Concepts: Data Structures & Algorithms, OOP, Cybersecurity Fundamentals

PROJECTS

Civi Alert

Web Deveploment Project

Dec 2025 *

React,Node.js,MongoDB

- Developed a real-time civic incident alert system using the MERN stack
- Integrated map-based location tracking for accurate incident reporting
- Enforced ID-based authorization to ensure authenticity of user submissions

E-commerce

Full Stack Project

April 2024 – May 2024

React,Node.js,Stripe

- Developed a full-stack e-commerce website supporting online payments via Stripe API.
- Implemented real-time cart state management using Redux Toolkit.
- Improved load performance and responsiveness across devices.

ACHIEVEMENTS

Tech Zephyr Contest

Unstop

Oct 2025

Online Contest

- Data Structure and Algorithm based contest
- Solved Problems in the most optimal way
- Competitive Contest to test profeciency in DSA

Coding Profile

Total : 300+

Oct 2024 – Present

CodeForces,Leetcode,GFG

Codeforces: Pupil (Max Rating: 1248) – Link

Leetcode: Solved 200+ problems on Leetcode – Link

EDUCATION

VIT Bhopal University

Computer Science and Engineering , Cybersecurity

Bhopal, MP

Sept 2023 – Present

Kiddy Convent High School

Science (PCM) - 80.4

Patna, Bihar

April 2019 – May 2021

D.A.V Public School

Xth - 91.6

Dumraon, Bihar

April 2018– May 2019

CERTIFICATIONS

- AWS Technical Essentials - AWS Skill Builder
- AWS Certified Cloud Practitioner (CLF-C02-English)
